

_Instructions for abstract preparation for the Newcomers Award

Please consider the following mandatory framework of the abstract.

- Length: 650 - 1200 words
- **Introduction & research question**
Explain the underlying question of your work, what the objective of the work is and what the practical relevance is.
- **Material & Methods**
Describe which methods/methodology and materials you used to arrive at the results of your work.
- **Practical relevance**
Be specific about what is relevant to practice in your work, or in what ways your results will be useful in practice in the future.
- **Results & Discussion**
Describe the results you have achieved and discuss the resulting opportunities and risks.
- **Conclusion & Outlook**
Briefly comment on the practical application of your results or what further activities are necessary to put your results into practice from your point of view and what from your point of view makes your work, your approach or the achieved result special or surprising.
